Product description:

Transparent pink, acid-free fiberglass gel with very high adhesive properties.

Medium viscosity, glossy, does not generate heat and does not yellow.

The gel can be easily filed into shape with very little filing dust.

In addition, it has a very low dispersion layer, so that a smile line can be modeled directly.

Application instructions:

Apply the gel to the prepared natural fingernail or tips in one or more layers.

The curing time per layer is 60-90 seconds under UV/LED light. After curing, remove the dispersion layer with gel cleaner.

Fiberglas Gel Rosa

Marking element:

Attention

H317 – May cause allergic skin reactions.

H319 – Causes serious eye irritation.

H411 – Toxic to aquatic life with long-lasting effects.

EUH204 – Contains isocyanates. May cause allergic reactions.

P280 – Wear protective gloves made of butyl rubber in accordance with EN 374 and eye protection in accordance with EN 166

P302 + P352 - IF ON SKIN: Wash with plenty of soap and water

P333 + P313 – If skin irritation or rash occurs: get medical advice/attention.

P305 + P352 + P338 – IF IN EYES: Rinse cautiously

with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 – If eye irritation persists: Get medical advice/attention.

P362 + P364 - Take off contaminated clothing and wash it before wearing it again.

P273 – Avoid release to the environment.

P501 – Dispose of contents/container to an approved waste disposal company.

PAO - When stored correctly, it can be kept for 12 months after opening (can symbol).

Unopened in its original packaging and when stored correctly (cool, dry, protected from sunlight between 10 and 25°C), it can be kept for several years.
